HovorTech

Industrial Automation • Repair • After-Sales Service — Bangladesh

Your After-Sales Service Partner in Bangladesh

HovorTech is an industrial automation and repair company based in Dhaka, Bangladesh. We provide local installation, commissioning, after-sales maintenance and component-level repair for Chinese machine suppliers who have already sold machines into Bangladesh — so when your customer's line stops, you do not need to fly an engineer from China for every breakdown.

What we do for Chinese machine suppliers

- ✅ Installation & commissioning at the buyer's factory — uncrating, wiring, parameter setup, trial production
- ✅ After-sales maintenance & SLA — a named local engineer, emergency visits, scheduled servicing
- ✅ Component-level repair — VFD / inverters, servo drives, SMPS power supplies, PLC & HMI boards
- ✅ PLC & HMI programming, parameter backup and project recovery
- ✅ Fiber fusion splicer repair — Sumitomo, Fujikura, INNO Instrument, Signal Fire
- ✅ Clear reports back to you in English or Chinese after every job

Brands we service

Siemens • Mitsubishi • Delta • Yaskawa • INVT • Holip • Panasonic • Omron • Fatek • Weintek • Proface — and the control systems fitted to Chinese-built machines of every kind.

Service packages

Basic	Remote diagnosis by WeChat / WhatsApp and pre-installation checks before your machine ships.
Install	On-site installation, wiring, parameters and trial run — with a written report back to you.
SLA	Priority after-sales cover: emergency visits, board-level repair and spare-parts chasing, under one agreement.

How it works

1. You introduce us to your Bangladesh buyer, or send us their contact.
2. We visit the factory, fix the problem and report back to you.
3. Your customer keeps producing — and your reputation in Bangladesh grows.

Where we work

Based in Dhaka — serving Dhaka, Gazipur, Savar, Ashulia, Narayanganj and Chattogram, the heart of Bangladesh's garment, textile, plastics and packaging industry. Real repair and recovery work is on our YouTube channel: youtube.com/@hovortech
